

Zeeland Little League Substitute Policy Protocol

Zeeland Little League Substitute Policy Protocol:

- **Step #1:** Little League board members will assemble, post, and regularly update a substitute availability list on the Zeeland Recreation Little League website
- **Step #2:** When a coach is in need of a sub, they must check the sub list on Zeeland Recreation Little League website (put link here), and call the first player available on the list. If the first player on the list isn't available, continue contacting players on the list in the proper numerical order listed on the website. Please refrain from the urge to call the "best player" on the sub list and be sure to follow the numerical order. Failing to follow this protocol will result in an automatic forfeit for your team for that game, along with potential coach discipline from Zeeland Recreation.
- **Step #3:** Only play the sub(s) you obtained if you have 8 or less players from your roster at your game. If 9 of your roster players show up, the sub may not play. Subs may not pitch and must be listed as the 9th batter in the batting order. Failing to follow this protocol will result in an automatic forfeit for your team for that game, along with potential coach discipline from Zeeland Recreation.
- **Step #4:** If you are going to play a necessary sub, report your sub to the umpire and opposing coach prior to the game, and then report the sub you used to your commissioner when you report the game scores. That information will be used to update the substitute availability list order on the website.
