

Tights Requirements for Zeeland Recreation Spring 2018 Performances by Class

Tights Options:

Footed- Footed tights cover the entire foot

Convertible Tights- Convertible Tights cover the foot, but have an opening under the arch that allow the dancer to roll the tight around the ankle. They are designed for pointe dancers who need to get to their toes for padding or those who dance modern or contemporary classes barefoot.

Body Tights- Body Tights do not have a waistband but instead are held up by clear over the shoulder convertible straps so they cover the torso and chest.

All tights required below are footed unless specifically noted otherwise.
